UCT to host Western Cape Built Environment Stakeholder Engagement Roadshow

7 November 2025 | 08:00-16:00 SAST | The Hasso Plattner School of Design Thinking Afrika

The University of Cape Town (UCT), in partnership with the Council for the Built Environment (CBE) and the Department of Public Works and Infrastructure (DPWI), will host the Western Cape Built Environment Stakeholder Engagement Roadshow (BESER). This event is part of a national series aimed at strengthening collaboration and promoting professional excellence across South Africa's built environment sector.

The roadshow seeks to deepen partnerships, advance professional standards and transformation, and align industry practices with national development priorities while expanding the CBE's institutional presence across provinces.

As the academic host, UCT brings research expertise and thought leadership to the engagement, reinforcing its commitment to innovation, sustainability and the advancement of the built environment.

The gathering will bring together key stakeholders from the public and private sectors, professional councils, academia, industry bodies and local government. It will provide a platform to bridge policy and practice, supporting the CBE's goal of building an inclusive, professional and future-focused built environment.

Members of the media are requested to [RSVP](#) for attendance.
