

# Students with fee debt from 2023 who were on UCT financial aid or GAP funding

Students on GAP funding in 2023, who failed to meet the academic requirements for renewal, can submit an appeal to the Student Financial Aid Office provided they are within the N+2 rule and have made sufficient academic progress to complete their programme of study or are finalists for 2024 within N+3.

Due to budget constraints, appeals for funding will not be considered for N+3 or more years of study.

UCT funding for approved N+2 students that meet the policy criteria (eg that exceed the N+1 rule) will only cover tuition and a meal allowance. Students will be required to apply to other sources for funding for all other costs.

Where the on line appeal form is not available, please email the Undergraduate Funding Office for assistance to activate the online appeal tile in Peoplesoft Student Self Service.
